- 1) Boudaries: Discussion took place regarding the boundaries. It was agreed that in the spring posts be positioned at various intervals along the boundary line.
- 2) Water Level: Following the collapse of the dam wall at Whaley Bridge earlier this year, C&RT have been told to reduce the level of the water at various reservoirs in order that the dam wall can be inspected and cleared of any trees or roots that could cause damage. C&RT will inform us when water will be taken and also when the valves will be closed.
